

beauty with a higher purpose

**Flawless skin is everyone's dream.
Our line makes it a reality.**

Skin nurturing makeup for beauty with a higher purpose.

glōminerals™ is a makeup system uniquely formulated for skincare professionals and their clients. These advanced formulations combine pharmaceutical-grade ingredients, natural high-pigment minerals and the power of antioxidants. The result is clinically advanced mineral makeup that covers and helps correct and protect.

Our formulations deliver unsurpassed coverage, broad spectrum UV protection and assist in combating free radical damage. glōminerals™ offers innovative new products with a color palette rich with the hottest hues and timeless color classics. Our clinical skincare makeup line is embraced by dermatologists, plastic surgeons and leading skincare professionals in the United States and abroad.

Antioxidant Power

glōminerals™ makes science beautiful by infusing the formulations with the powerful antioxidant blend of vitamins C,A,K,E and green tea extract. On your skin, this blend provides nutrients that are vital to maintaining the health of your skin while protecting it from further damage.

Pharmaceutical-grade Ingredients

glōminerals™ is committed to creating the smartest and safest working formulations with only superior pharmaceutical-grade vitamins and minerals.

- We use only the finest ingredients and micronized minerals in a *triple milled* process ensuring that every application provides even, continuous coverage that lasts.
- Our base formulations contain no perfumes or chemical dyes. All are suitable for even the most sensitive skin types and conditions.
- Every glōminerals™ product is non-comedogenic so skin can breathe, which helps inhibit the potential for bacteria to become trapped in pores.

Broad Spectrum UVA and UVB Sun Protection

Our products provide complete protection using the effective properties of natural minerals including micronized titanium dioxide and zinc oxide.

Color Palette

glōminerals™ offers the hottest hues and color favorites, all rich in pigment and ready to wear. A blissful union of fashion and timelessness offering the perfect glō.

Anti-inflammatory - Acne and Rosacea Prone Skin

Anti-inflammatory ingredients, including green tea extract, zinc and vitamin C, help improve the appearance and condition of acne and rosacea-prone skin.

Cruelty-free

We do not test our products on animals.
